THE BEST TRAINING CENTER IN THE WORLD

8,500 SURGEONS TRAINED EACH YEAR (ONLINE & ON-SITE)

FULL IMMERSION IN HEPATOBILIARY AND PANCREATIC SURGERY

IRCAD has two comprehensive HBP surgery courses this year, with the goal of enabling participants to perform complex surgeries with confidence and precision.

The 3-day laparoscopic course and the new 2-day robotic course offer participants unique opportunities to enhance their surgical skills. The laparoscopic course provides a comprehensive understanding of the latest techniques and best practices in laparoscopic surgery, including live and pre-recorded operative demonstrations, theoretical presentations and hands-on training with world-renowned experts. Similarly, the robotic course offers informative lectures, live or pre-recorded demonstrations,

and hands-on practical sessions that enable participants to explore the latest robotic technologies used in HBP surgery. With expert guidance, participants will learn to set up the robot properly and use its functions to achieve optimal surgical outcomes.

The laparoscopic course covers biliary, hepatic, and pancreatic surgeries, with a focus on preventing and managing complications, and the robotic course focuses on hepatic and pancreatic surgeries only. Both courses prioritize participant interaction and offer practical training to develop skills applicable to clinical practice.

COURSE CANCELLATION POLICY

Should you wish to cancel or postpone your registration, please notify us by email at: cancellation@ircad.fr. For the hotel cancellation policy, please check page 13.

Please note that no refund or postponement will be considered for any cancellation received less than 6 weeks before the course starts, even if Visa application has been denied.
