

## **XVIII. WRIST SURGERY COURSE**

Course with Double Workshop from 11.04. - 13.04.2024  
Sequelae of Distal radius fractures  
IRCAD Institute in Strasbourg

Kunstwerk von DxDiane

Dear colleagues,

since the Corona Crisis, our course has temporarily moved to Strasbourg. I am extremely thankful to IRCAD and their team to host our course.

Distal radius fractures and their sequela will be this year's main argument. In addition we will deal with interesting topics like arthroplasties.

We will go somehow back to the original program:

We will at first a **Patient Examination Course** on Thursday afternoon. Patients from Markgröningen will be visited by Experts live at the IRCAD.

We will then have all the talks and discussion in our **Scientific Symposium** on Friday.

For registered participants we will continue with our **Double Workshop** on Fresh frozen specimen on Saturday.

Only 40 registered participants will be admitted.

You can register either for the open or arthroscopic wrist surgery course.

We will then register the operations on those patients in the following months and make them available to the participants.

So this would be a **Re-Live Operation Course**.

We hope to see you in Strasbourg, for an exciting symposium and course!

Best regards

Prof. Max Haerle
