

7:45 am — REGISTRATION AND WELCOMING OF PARTICIPANTS

8:00 am — **LIVE AND PRE-RECORDED OPERATIVE DEMONSTRATIONS**

- A very complex case of anal fistula:  
Video-Assisted Anal Fistula Treatment (VAAFT) technique
- Pelvic Organ Prolapse Suspension (POPS) for descending perineum
- Large rectal polyp: Transanal Minimally Invasive Surgery (TAMIS) procedure
- Perineum reconstruction: a very complex case
- Endoscopic Pilonidal Sinus Treatment (EPSiT)
- Martius flap for complex recto-vaginal fistula
- VHT: Video Hemorrhoids Treatment
- Complex anal fistula in Crohn's disease
- Large condyloma infection: my surgical strategy

2:00 pm — LUNCH AT THE INSTITUTE

2:45 pm — **TRAINING ON PELVIC TRAINER, LIVE TISSUE (MINI-PIG) AND MODELS**

- Ventral rectopexy
- Transanal Endoscopic Operation (TEO) and Transanal Minimally Invasive Surgery (TAMIS)
- Video-Assisted Anal Fistula Treatment (VAAFT)
- Endoscopic Pilonidal Sinus Treatment (EPSiT)
- Laparoscopic stoma tailoring

6:00 pm — END OF SESSION

8:00 pm — DINNER IN HONOR OF PARTICIPANTS

7:45 am — EVALUATION OF THE PREVIOUS DAY

8:00 am — THEORETICAL SESSION

## SESSION 1: SEXUALLY TRANSMITTED DISEASES (STD)

Lecture: What's new in proctology?

- STD: five questions we are struggling to answer
- High Resolution Anoscopy: how to do it
- HPV Vaccine: when, who and why
- Surgical strategy for condylomas
- What to do when there is a cancer
- Precise typing is mandatory: what must be done

Open round table: patient's QoL and ethical aspects

## SESSION 2: COMPLEX ANAL FISTULA AND RECURRENCES

Lecture: What could we have done?

- Annual report of the International Anal Fistula Task Force
- Current seton role: pros & cons
- Combined minimally invasive treatments to win the long-standing fight
- Mesenchymal stem cells for perianal Crohn's disease
- Complex anal fistula in Crohn's disease: the St. Mark's experience with minimally invasive techniques
- How many times do we unknowingly treat false anal fistulas?
- What are the most effective minimally invasive procedures from the literature?

Open round table: Patients suffering from complex anal fistula  
- their points of view

1:00 pm — LUNCH AT THE INSTITUTE

2:00 pm — SESSION 3: RECTAL POLYPS: GOING TOWARDS MINIMALLY INVASIVE SURGERY AND TRANSANAL APPROACH

Lecture: Video Hemorrhoids Treatment (VHT): the rationale of this new technique

- TAMIS
- What is available today to perform a transanal approach?
- Current strategy to treat histologically undefined rectal polyps at IRCAD France
- What can we do if there is a cancer?
- What can the robot do?
- A glance at the literature

Open round table: Current strategy at the Cleveland Clinic Foundation (Florida, USA)

**FACE-TO-FACE BETWEEN FACULTY AND AUDIENCE:  
"PLEASED TO PERSONALLY MEET YOU"**

5:00 pm — END OF COURSE  
DELIVERY OF CERTIFICATES OF ATTENDANCE
