COURSE OBJECTIVES

- ◇ Recognize potential complications that may arise during gynecological laparoscopy
- ◇ Develop strategies for effectively managing surgical complications in real-time
- ◇ Enhance understanding of preventive measures to minimize the occurrence of complications
- ◇ Acquire proficiency in troubleshooting techniques to address unforeseen challenges during procedures
- ◇ Foster confidence in handling complex scenarios through practical simulations and case studies.
- ◇ Explore advanced strategies for optimizing patient outcomes and minimizing postoperative complications
- ◇ Collaborate with peers to share experiences, best practices, and innovative approaches in complication management.
- ◇ Gain insights into emerging technologies and advancements in gynecological laparoscopy to enhance surgical safety and efficacy

EDUCATIONAL METHODS

- ◇ Intensive practical training on live tissue (mini-pigs) and pelvic trainers
- ◇ Interactive theoretical and video sessions between Faculty and course participants
