ENT SURGERY

VOCAL FOLD MEDIALIZATION TECHNIQUES

MAY 6

8:15 am ◦ REGISTRATION AND WELCOMING OF THE PARTICIPANTS

8:30 am • **THEORETICAL SESSION**

- Transnasal, endoscopic vocal fold augmentation
- Percutaneous vocal fold augmentation in the clinical setting
- Peroral vocal fold augmentation
- Gore-Tex medialization laryngoplasty
- Medialization laryngoplasty with Montgomery implant insertion
- Arytenoid adduction
- Cricothyroid subluxation

12:30 pm ◦ LUNCH AT THE INSTITUTE

1:30 pm • **PRE-LAB SESSION**

- Introduction to the hands-on session

2:00 am • **HANDS-ON SESSION ON ANATOMICAL SPECIMENS**

- Percutaneous vocal fold augmentation in the clinical setting
- Gore-Tex medialization laryngoplasty
- Medialization laryngoplasty with Montgomery implant insertion
- Arytenoid adduction
- Cricothyroid subluxation

5:00 pm ◦ **END OF THE COURSE**
DELIVERY OF CERTIFICATES OF ATTENDANCE

REGISTER ON
WWW.IRCAD.FR

COURSE OBJECTIVES

- To provide comprehensive hands-on training on vocal fold medialization techniques
- To transfer basic skills to practical use in clinical settings
- To acquire the ability to confront and overcome challenges
- To enhance technical proficiency by practicing on anatomical specimens sessions

EDUCATIONAL METHODS

- Hands-on practice on anatomical specimens
- Interactive theoretical and video sessions between Faculty and course participants
