MARCH 25 - 27

A. Wattiez (FR)

The course will consist of interactive video sessions in which experts will share their expertise. You will learn a range of surgical procedures, starting from basic surgeries such as fibroma removal and hysterectomy, and progressing to more complex surgeries like endometriosis and prolapse treatment. Furthermore, two full afternoons will be dedicated to hands-on practice on living tissue. Join us to acquire the techniques and understand the underlying rationale behind them!
